

Fans and drives

Spare parts guide

Key benefits

The BAC fan drive system features :

1. Fan ([axial](#) or [centrifugal](#))
2. [Shaft](#)
3. [Bearings](#)
4. [Motor](#)
5. [Sheave](#)
6. [Belt](#)

Each component of the fan drive system has passed a **longevity and quality test** in our [R&D laboratories](#). These parts are exclusively selected, designed or even patented, meeting **very strict technical specifications**.

All fans are in accordance with Ecodesign Regulation EU/327/2011 and motor comply to Ecodesign Regulation EC/640/2009.

That's why you best choose original BAC spare parts when replacing components from the fan drive system. This assures original performance and a year round reliable operation of your BAC cooling equipment.

Want to replace a part of the fan drive system? Contact your [local BAC representative](#).
